GGC Faculty-led Annual Program Review

- 1. After the program has concluded, please complete the attached program review questionnaire.
- 2. Annual program reviews are required by the Board of Regents of the University System of Georgia, and they serve as a way to improve the quality of the program for students and faculty.
- 3. Annual reviews are due within 14 days of the program end date. Since the annual review is a requirement for programs to continue to run, this allows for a timely process to prepare for the next program proposal timeline. It also allows for the review to be conducted while the experience is still fresh.
- 4. Once completed, submit the completed review to the Office of Internationalization at internationalization@ggc.edu.
- 5. If you have questions related to completing the review, please do not hesitate to contact the Office of Internationalization.
